Overview: WFL-860 Fluorescent Marking Ink

- A water based, “invisible” dye type marking ink
- Fluorescent enhancement activated by 366 nm ultraviolet light.
- Also available in a limited number visible colors.
- Slow drying, non settling, water removable
- Non flammable, non toxic and non hazardous.

This product is REACH and RoHS compliant. It does not contain any chemical from the candidate list of Substances of Very High Concern (SVHC), Annex XIV, or Annex XVII of REACH. It does not contain any of the RoHS listed substances.

Physical Properties:

Form:	Colored liquid
Odor:	extremely mild, soap like odor
Boiling Point	100° C 212° F
Freezing Point	0° C 32° F
Density/Specific Gravity	1.1 g/ml
Flash Point	None – non flammable
Vapor Pressure (mm Hg)	< 10
Vapor Density (air=1)	>1
Flammable Units (% in air)	LEL – None UEL - None
Solubility in water	100 %
Evaporation Rate (H₂O=1)	1.00
Percent Volatile (%)	85%
Volatile Organic Compound(VOC)	The following colors contain VOC: White & pastels: 0.33 lbs/gal Blue, Green, Yellow, Purple : 0.17 lbs/gal
